Name of Student: Rikisha Bhattacharya	**PRN: 25070122155**
Semester: III	**Year: AY 2026-27**
Subject: Programming with Java	
ASSIGNMENT N: 8	
TITLE: Super Keyword in Java	

Problem Statement

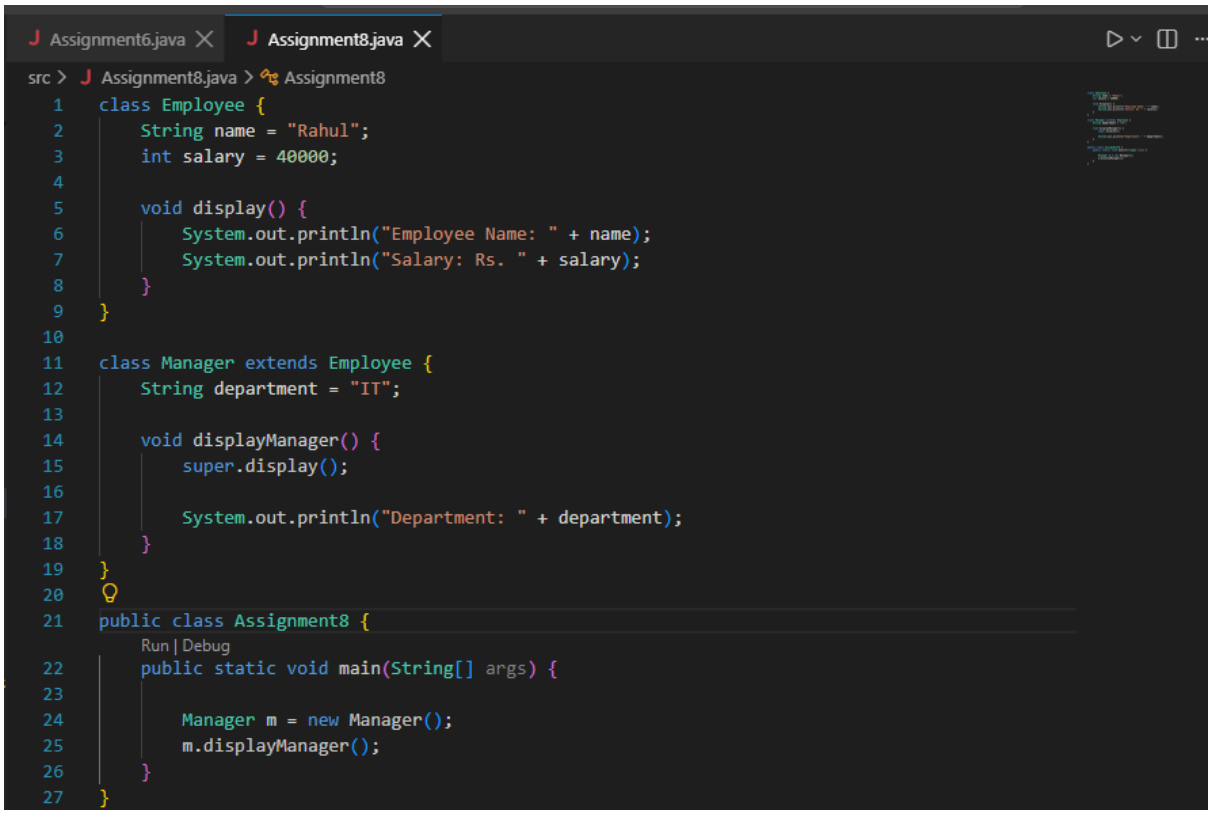

Write a Java program to demonstrate the use of the super keyword in inheritance.

Learning Objectives

To demonstrate the use of the super keyword for accessing parent class members.

1.Create an Employee and Manager program where Manager accesses Employee details using super keyword.

Programme

Output

```
PROBLEMS  OUTPUT  DEBUG CONSOLE  TERMINAL  PORTS                    powershell
PS C:\Users\RIKISHA\PROGRAMMING\Java> cd src
PS C:\Users\RIKISHA\PROGRAMMING\Java\src> javac Assignment8.java
PS C:\Users\RIKISHA\PROGRAMMING\Java\src> java Assignment8
Employee Name: Rahul
Salary: Rs. 40000
Department: IT
PS C:\Users\RIKISHA\PROGRAMMING\Java\src>
```

2. Develop a Vehicle Insurance System where child insurance classes access parent vehicle information using the super keyword.

Programme

Assignment6.java | Assignment8.java

src > Assignment8.java > Assignment8

```java
class Vehicle {
    String vehicleNumber = "MH12AB1234";
    String vehicleType = "Car";

    void displayVehicle() {
        System.out.println("Vehicle Number: " + vehicleNumber);
        System.out.println("Vehicle Type: " + vehicleType);
    }
}

class CarInsurance extends Vehicle {
    double premium = 15000;

    void displayInsurance() {
        super.displayVehicle();

        System.out.println("Insurance Premium: Rs. " + premium);
    }
}

public class Assignment8 {
    Run | Debug
    public static void main(String[] args) {

        CarInsurance c = new CarInsurance();
        c.displayInsurance();
    }
}
```

Output

```
PROBLEMS  OUTPUT  DEBUG CONSOLE  TERMINAL  PORTS    Debug: Assignment8
PS C:\Users\RIKISHA\PROGRAMMING\Java> & 'C:\Program Files\Java\jdk-26.0.1\bin\java.exe' '-agentlib:jdwp=transport=dt
_socket,server=n,suspend=y,address=localhost:60410' '--enable-preview' '-XX:+ShowCodeDetailsInExceptionMessages' '-cp
' 'C:\Users\RIKISHA\PROGRAMMING\Java\bin' 'Assignment8'
Vehicle Number: MH12AB1234
Vehicle Type: Car
Insurance Premium: Rs. 15000.0
PS C:\Users\RIKISHA\PROGRAMMING\Java>
```

Conclusion

This assignment helped us understand the super keyword in Java inheritance. We learned how super is used to access parent class variables, constructors, and methods.

The program demonstrates how super helps access and reuse features of the parent class.
